"I am using the VetZone in setting up my private practice, where I mainly work on show and competition dogs. I do a great deal of work on lameness, nutrition, and reproduction. I have found the templates to be useful in preparing written materials. The special reports section has given me many helpful ideas. Thank you for putting this information out there where it's easy to access."

*Laurie S. Coger, DVM

“TheVetZone has allowed me to access useable and timely practice improvements. The resources are comparable, or superior, to those attainable at high cost meetings. Thank you, TheVetZone.”

"I have found that the ‘Did you Get My Message’ article is very informative and useful, especially in starting a new practice. I plan to incorporate some of the ideas I found in that article into my practice."
